

CALL CENTRE AND OFFICES FOR AUTOLINE, NEWRY

Project, 19,000 ft, comprises 3 storey open plan offices with dedicated undercroft car parking

Client: AUTOLINE

SUMMARY:

Value: £2 million
Status: Complete
Architect: Milligan Reside Larkin
Main Contractor: Murdock Hardwood
Struct/Civil Engineer: Nicholas O'Dwyer Ltd
CDM Co-ordinator: Nicholas O'Dwyer Ltd

Accommodation Provided:

19,000 ft² of open plan offices, complete with undercroft parking facilities.

This building, 19,000 ft, comprises 3 storey open plan offices with dedicated undercroft car parking on a restrictive triangular shaped site. The steel frame was designed and analysed using the CSC Steelwork computer programme package and specifically tailored to accommodate mechanical and electrical services.

Nicholas O'Dwyer provided full structural/civil engineering services in addition to acting as CDM Co-ordinator for the project.
