

COUNTY CLARE NON-DOMESTIC METERING PROJECT.

Metering of Non-Domestic Water Connections

Client: Clare County Council

SUMMARY:

Value: (DB) €3.9m

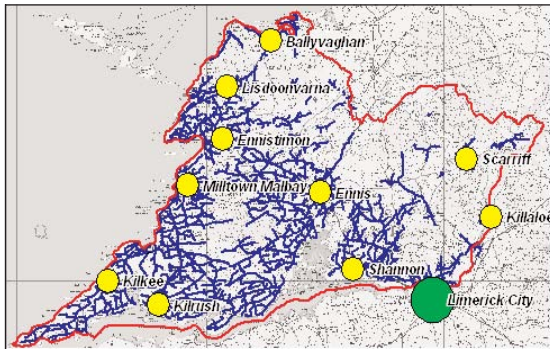

Firm: Nicholas O'Dwyer Ltd

Status: Design-Build Stage completed 2009

Contract Type: Design Build (DB)

Contractor: Treatment Systems Services Ltd

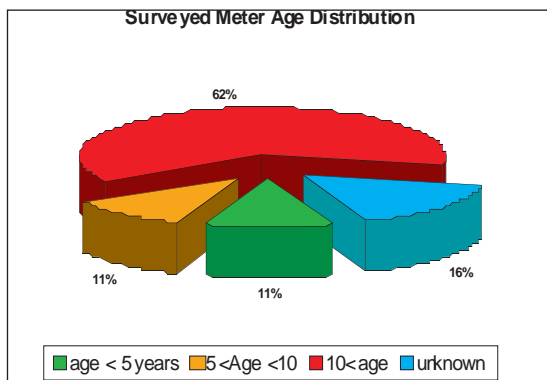

Sub Consultants: Parsons Brinckerhoff Ltd

Description:

The project involved the survey of all existing non-domestic customers and connections, development of a customer database to store all relevant information, installation and reading of meters, billing of customers, collection of revenue and management of customer communications.

The customer surveys, database construction, meter installation and meter reading-system were procured as a DB contract. The management of meter-reading, billing, revenue collection and customer communications was retained in-house by Clare County Council.

Services Provided by Nicholas O'Dwyer:

- Baseline surveys and analysis
- Preliminary Report, including procurement options, service scoping and cost estimate
- Preparation of Specifications and Contract Documents
- Management of Pre-qualification and Tendering processes
- Management and supervision of Contract
- Facilitation of consultations with Stakeholders

Principal Project statistics:

- Customer Surveys: 9,900
- New Meters Installed: 3,400
- Existing Meters Retained: 4,900
- Automatic Meter Reading (AMR) System Meters: 700
