

COUNTY MAYO NON-DOMESTIC METERING PROJECT.

Metering of Non-Domestic Water Connections

Client: Mayo County Council

SUMMARY:

Value: (DB) €5.9m + (OM) €610,00pa

Firm: Nicholas O'Dwyer Ltd

Status: Design-Build Stage completed 2008

Contract Type: Design Build Operate (DBO)

Contractor: Laing O'Rourke Utilities Ireland Ltd

Sub Consultants: Parsons Brinckerhoff Ltd
and Tobins Consulting Ltd

Description:

The project involved the survey of all existing non-domestic customers and connections, development of a customer database to store all relevant information, installation and reading of meters, billing of customers, collection of revenue and management of customer communications.

The customer surveys, database construction, meter installation, meter management and meter reading activities were procured as a DBO contract. The management of billing, revenue collection and customer communications was retained in-house by Mayo County Council.

Services Provided by Nicholas O'Dwyer:

- Baseline surveys and analysis
- Preliminary Report, including procurement options, service scoping and cost estimate
- Preparation of Specifications and Contract Documents
- Management of Pre-qualification and Tendering processes
